**Growth of Montana Domicile Showcased  
at MCIA Second Annual Conference**

July 27, 2007 -- Montana captive regulatory officials last week announced that the domicile is on track to license its 30<sup>th</sup> captive insurance company before the end of the year, confirming that it is one the fastest growing domestic domiciles and is focused on becoming the leading captive domicile in the Western United States.

These comments were part of a presentation at the Second Annual Montana Captive Insurance Association, Inc. (MCIA) Annual Conference held in Whitefish, Montana. The conference attracted 90 attendees, representing a 39% increase from the previous year.

MCIA intends to bring the conference back to Whitefish in 2008, thereby creating a new summer tradition for those interested in doing business in the Montana domicile.

The Montana Captive Insurance Association is a trade organization dedicated to representing the business, legislative and regulatory interests of companies involved with captive insurance programs within the state of Montana. Additional information can be accessed on-line at [www.mtcaptives.org](http://www.mtcaptives.org), or by calling 866/388-6242.
